Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61-KC-3]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CON- TROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CON- TROL AREAS

Alteration of Federal Airways and Associated Control Areas

On May 2, 1961, a notice of proposed rule making was published in the *FEDERAL REGISTER* (26 F.R. 3780) stating that the Federal Aviation Agency (FAA) proposed to alter low altitude VOR Federal airway Nos. 193, 51 and 172 and intermediate altitude VOR Federal airway No. 1663 in the vicinity of Chicago, Ill. In addition, it was stated that the control areas associated with the proposed segment of Victor 193 and the altered segments of Victor 51 and Victor 172 would extend

upward from at least 1,200 feet above the surface or, if appropriate, 500 feet below the minimum IFR en route altitude when established.

On July 29, 1961, a supplemental notice was published in the *FEDERAL REGISTER* (26 F.R. 6816) which altered the original proposal. The supplemental notice proposed that the control areas associated with the proposed segment of Victor 193 and the altered segments of Victors 51 and 172 extend upward from 700 feet above the surface to the base of the continental control area until such time as Amendment 60-21 to Part 60 of the Civil Air Regulations could be applied to the control areas associated with the other airways in the Chicago, Pullman and South Bend areas.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice and the supplemental notice, the following actions are taken:

§ 600.6051 [Amendment]

1. In the text of § 600.6051 (14 CFR 600.6051, 26 F.R. 8246) "Chicago, Ill., (O'Hare) VORTAC 078° True radials" is deleted and "Chicago, Ill., (O'Hare) VORTAC 077° radials" is substituted therefor.

§ 600.1663 [Amendment]

2. In the text of § 600.1663 (26 F.R. 1079) "INT of the South Bend VOR 314°" is deleted and "INT of the South Bend VOR 310°" is substituted therefor.

§ 600.6172 [Amendment]

3. In the text of § 600.6172 (14 CFR 600.6172) "INT of the Chicago (O'Hare) VOR 078° and the South Bend VOR 314° radials;" is deleted and "INT of the Chicago (O'Hare) VORTAC 077° and the South Bend VORTAC 310° radials;" is substituted therefor.

§ 600.6193 [Amendment]

4. In § 600.6193 (14 CFR 600.6193) the following changes are made:

(a) In the caption "Keeler, Mich.," is deleted and "Pullman, Mich.," is substituted therefor.

(b) In the text "From the Keeler, Mich., VOR via the Pullman, Mich., VOR.;" is deleted and "From the INT of the Pullman, Mich., VORTAC 243° and the South Bend, Ind., VORTAC 310° radials via the Pullman, VORTAC;" is substituted therefor.

5. In § 601.6193 (14 CFR 601.6193) the caption is amended to read:

§ 601.6193 VOR Federal airway No. 193 control areas (Pullman, Mich., to Sault Ste. Marie, Mich.).

These amendments shall become effective 0001 e.s.t., January 11, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 8, 1961.

[Airspace Docket No. 61-NY-76]

PART 601—DESIGNATION OF CON- TROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CON- TROL AREAS

Alteration of Control Zone

The purpose of this amendment to § 601.2022 of the regulations of the Administrator is to eliminate a reference to the Riverdale, Md., radio beacon.

The Washington, D.C., control zone is presently designated in part with reference to the Riverdale, Md., radio beacon. The Federal Aviation Agency intends to decommission the Riverdale, Md., radio beacon after the permanent Washington, D.C., VOR is commissioned on or before November 16, 1961. To permit prompt decommissioning of the Riverdale, Md., radio beacon, it is necessary to eliminate reference thereto in § 601.2022.

Since the change effected by this amendment imposes no additional burden on any person, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, these amendments will become effective more than thirty days after publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) the following action is taken:

In § 601.2022 (14 CFR 601.2022) the following change is made:

In the text "to the Riverdale, Md., nondirectional radio beacon." is deleted and "to a point 11.3 miles NE of the Washington RR." is substituted therefor.

This amendment shall become effective 0001 e.s.t., December 14, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 8, 1961.

D. D. THOMAS,
Director, Air Traffic Service.

[Airspace Docket No. 61-KC-46]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS**PART 608—SPECIAL USE AIRSPACE****Revocation of Restricted Area and Alteration of Control Area Extension**

The purpose of these amendments to § 601.1422 and § 608.43 of the regulations of the Administrator is to revoke the Duluth Municipal Airport Minn., Restricted Area/Military Climb Corridor R-4302 and delete this area from the description of the Duluth control area extension.

The Department of the Air Force has advised the Federal Aviation Agency that Restricted Area R-4302 is no longer used for the purpose designated and has recommended its revocation. Therefore this designation of special use airspace is unjustified and revocation thereof is in the public interest. Such action is taken herein. Concurrently with this action, it is necessary to delete all reference to R-4302, formerly R-548, in the description of the Duluth, Minn., control area extension.

Since these amendments reduce a burden on the public, notice and public procedure hereon are unnecessary, and they may be made effective upon publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following actions are taken:

1. In § 608.43 Minnesota (26 F.R. 7197), R-4302 Duluth Municipal Airport, Minn., Restricted Area/Military Climb Corridor is revoked.

2. In the text of § 601.1422 (14 CFR 601.1422) "The portion of this control area extension which lies within the Duluth, Minn., Municipal Airport Restricted Area/Military Climb Corridor (R-548) shall be used only after obtaining prior approval from the controlling agency." is deleted.

These amendments shall become effective upon the date of publication in the **FEDERAL REGISTER**.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 8, 1961.

Director, Air Traffic Service.

PART 602—DESIGNATION OF JET ROUTES, JET ADVISORY AREAS AND HIGH ALTITUDE NAVIGATIONAL AIDS**Alteration of Jet Route**

On August 25, 1961, a notice of proposed rule making was published in the **FEDERAL REGISTER** (26 F.R. 7972) stating

that the Federal Aviation Agency proposed to alter the segment of Jet Route No. 35 from Jackson, Miss., to Memphis, Tenn.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following action is taken:

In § 602.100 *Jet routes* (26 F.R. 7079), Jet Route No. 35 is amended to read:

Jet Route No. 35 (New Orleans, La., to Naperville, Ill.):

From New Orleans, La., via Jackson, Miss.; Greenwood, Miss.; Memphis, Tenn.; St. Louis, Mo.; to Naperville, Ill.

This amendment shall become effective 0001 e.s.t., December 14, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 8, 1961.

D. D. THOMAS,
Director, Air Traffic Service.

[Reg. Docket No. 965; Amdt. 81]

PART 610—MINIMUM EN ROUTE IFR ALTITUDES**Miscellaneous Amendments**

This amendment is being adopted to insure the safety of IFR operations by establishing the minimum en route IFR altitudes for the route or portions thereof contained herein, and the altitudes which assure navigational coverage that is adequate and free of frequency interference for such routes or portions thereof.

As a situation exists which demands immediate action in the interest of safety, I find that compliance with the notice, public procedure, and effective date provisions of the Administrative Procedure Act would be impracticable.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5602), Part 610 is hereby amended as follows:

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

Penicillin-Streptomycin (or Dihydrostreptomycin) in Oil or Ointment

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and delegated to the Commissioner of Food and Drugs by the Secretary (25 F.R. 8625), § 146a.89 *Penicillin-streptomycin in oil* * * * paragraph (a) of the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR 146a.89) is amended by adding thereto a new subparagraph (3), reading as follows:

(3) If it is intended solely for veterinary use in the eyes and ears of animals and is conspicuously so labeled, it may contain chlorhexidine dihydrochloride- (bis (p-chlorophenyl)-diguano) hexane dihydrochloride).

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since the amendments are not restrictive in nature and since the antibiotic drug affected, containing chlorhexidine dihydrochloride, has been shown to be safe and efficacious for use.

Effective date. This order shall become effective 30 days from the date of its publication in the FEDERAL REGISTER.

(a) Except as provided in paragraphs (b) and (c) of this section, the charge for use and occupancy of lands under the regulations of this part will be the fair market value of the permit, right-of-way, or easement, as determined by appraisal by the authorized officer. Periodic payments or a lump-sum payment both payable in advance, will be required at the discretion of such officer: (1) When periodic payments are required the applicant will be required to make the first payment before the permit right-of-way, or easement will be issued (2) upon the voluntary relinquishment of such an instrument before the expiration of its term, any payment made for any unexpired portion of the term will be returned to the payer upon a proper application for repayment to the extent that the amount paid covers a full permit, right-of-way, or easement year or years after the formal relinquishment. *Provided*, That the total rental received and retained by the Government for the permit, right-of-way, or easement, shall not be less than \$25. The amount to be so returned will be the difference between the total payments made and the value of the expired portion of the term calculated on the same basis as the original payments.

(b) Except as provided in paragraph (c) of this section, the charge for use and occupancy of lands under the regulations of this part shall not be less than \$25 per five-year period for any permit, right-of-way, or easement issued.

(1) Where the use and occupancy are exclusively for irrigation projects, municipally operated projects, or nonprofit or Rural Electrification Administration projects, or where the use is by a Federal governmental agency.

(2) Where the permit, right-of-way, or easement is granted under the regulations in Subparts B, C, G, and H of this part.

(d) If a charge required by this section is not paid when due, and such default shall continue for 30 days after notice, action may be taken to cancel the permit, right-of-way or easement. After default has occurred, no structures, buildings, or other equipment may be removed from the servient lands except upon written permission first obtained from the authorized officer.

(e) At any time not less than five years after either the grant of the permit, right-of-way, or easement or the last revision of charges thereunder, the authorized officer, after reasonable notice and opportunity for hearing, may review such charges and impose such new charges as may be reasonable and proper commencing with the ensuing charge year.

(f) The provisions of this section shall not have the effect of changing, modifying, or amending the rental rates or charges imposed for existing water power projects under rights-of-way previously approved by this Department.

PART 3—RADIO BROADCAST SERVICES

Stereophonic Broadcasting

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 8th day of November 1961;

The Commission having under consideration the amendment of its rules governing Noncommercial Educational FM broadcast stations to permit the transmission of stereophonic programs on a multiplex basis in the same manner as currently available to commercial FM broadcast stations; and

It appearing that on April 19, 1961, the Commission adopted a Report and Order in Docket No. 13506 (FCC 61-524; 26 F.R. 3529) amending its rules to allow commercial FM broadcast stations to engage in stereophonic broadcasting subject to certain technical and notification requirements; and

It further appearing that in recognition of comments filed in that proceeding by WGBH Educational Foundation, the Commission indicated its intention to initiate separate rule making in the near future "to ascertain whether a requirement for stereophonic broadcasting can be established by educational FM interests"; and

It further appearing that since the adoption of said Report and Order the Commission has received numerous letters and inquiries from educational FM licensees urging that prompt provision be made for educational FM multiplex stereocasting; and

It further appearing that no opposition has been expressed to extending stereophonic operating privileges to Noncommercial Educational FM broadcast stations, nor does there appear to be any reasonable basis upon which such opposition could develop; and

It further appearing that general notice of proposed rule making pursuant to section 4(a) of the Administrative Procedure Act would serve no useful purpose, would delay the implementation of educational FM stereophonic broadcasting for some time, and would therefore be contrary to the public interest; and

It further appearing that authority for the amendment herein adopted is contained in sections 303(b), 303(c), 303(e), 303(g), 303(j), and 303(r) of the Communications Act of 1934, as amended:

It is ordered, That, effective December 18, 1961, the Commission's rules be amended as set forth below.

RECONSTITUTION OF FARMS, FARM ALLOTMENTS, AND FARM HISTORY AND SOIL BANK BASE ACREAGES

Proposed Transfer of Pooled Allotments

Notice is hereby given in accordance with section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) that it is proposed to amend the regulations governing the Reconstitution of Farms, Farm Allotments, and Farm History and Soil Bank Base Acreages pursuant to the authority contained in section 375(b) of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1375(b)), and section 124 of the Soil Bank Act (7 U.S.C. 1812). The purpose of the proposed amendment is to revise § 719.12(d)(2) of the regulations to provide that a displaced owner requesting transfer of pooled allotment must present conclusive evidence of bona fide ownership of the farm for the purpose of reestablishing his farming operations and to state certain elements which would be conclusive evidence of bona fide ownership of a farm for the purpose of reestablishing the farming operations of the displaced owner.

Section 719.12(d)(2) (26 F.R. 7259) would be amended to read as follows:

§ 719.12 Pooling of farm acreage allotments where the farm owner is displaced by a Federal, State, or other agency having right of eminent domain.

(d) Where agency will not continue production of allotment crops. * * *

(2) Transfer of allotment from the pool. (i) Application by displaced owner: The displaced owner shall file written application for transfer of allotment from the pool by August 29, 1961, or within three years after such owner is displaced, whichever is later, with the county committee of the county in which the farm which is to receive allotment from the pool is located. The application shall contain a certification by the displaced owner that he has made no side agreement with any person for the purpose of obtaining an allotment from the allotment pool for a person other than himself. The displaced owner shall attach to the application all pertinent documents pertaining to his ownership or purchase of land and any leasing arrangements; as for example, the deed of trust or mortgage, warranty deed, note, sales agreement, and lease.

(ii) Action by county committee: The county committee shall consider each application and determine whether the transfer of allotment from the pool shall be approved. Before an application is acted upon by the county committee, the displaced owner shall personally appear before the county committee after reasonable notice, bring any additional pertinent documents as may be requested for examination by the county committee and answer all pertinent questions bearing on the proposed transfer: *Provided, however,* That if the State committee determines from facts presented to it on behalf of the displaced owner that such personal appearance would unduly inconvenience the displaced owner on account of illness or other good cause and such personal appearance would serve no useful purpose, the State committee shall notify the county committee that the displaced owner need not make such personal appearance. Any action by the county committee shall be subject to the approvals required under subdivision (iv) of this subparagraph.

(iii) Elements of bona fide ownership: The county committee shall approve the transfer of allotment only where the documents and other evidence presented by the displaced owner show conclusively that the displaced owner has made a normal acquisition of the land to which the allotment will be transferred for the purpose of bona fide ownership to reestablish his farming operations. The elements of such an acquisition shall include, but are not limited to, the following conditions: (a) Appropriate legal documents establishing title to the land; (b) if the displaced owner was the operator (person in charge of the supervision and conduct of the farming operations

on the entire farm) of the farm at the date of displacement, such displaced owner shall personally operate and be the operator of the farm to which allotment is requested to be transferred for the first year that allotment is transferred; (c) if the displaced owner was not the operator of the farm at the date of displacement and he was not a producer because the leasing or rental agreement provided for cash, fixed rent, or standing rent payment, such displaced owner shall not be required to personally operate and be the operator of the farm to which allotment is requested to be transferred but at least 75 percent of the allotment for the farm to which allotment is transferred shall be planted on the farm for the first year; (d) the contractual arrangements between the displaced owner and the seller of the farm shall not contain a requirement that the farm be leased to the seller or a person designated by or subject to the control of the seller nor shall the seller or a person designated by or subject to the control of the seller lease the farm for the first year the allotment is transferred even though such contractual arrangements are silent as to any lease; (e) if the displaced owner was not the operator of the farm at the date of displacement but he was a producer on the farm at the date of displacement by virtue of receiving a share of the crops produced on the farm, such displaced owner shall not be required to be the operator of the farm to which allotment is requested to be transferred but he shall be a producer on the farm the first year that allotment is transferred; and (f) contractual arrangements under which the farm was purchased or leased are customary in the community where the farm is located with respect to purchase price, size of payments due, time when payments are due, and size of rental payments, if any.

(iv) State committee approval: The action of the county committee under this subparagraph in approving or disapproving an application shall be effective only upon approval of the State committee or its representative. In case the transfer of allotment is from a pool in one State to a farm in another State, the concurrence of the State committee or its representative from the State where the allotment is pooled shall also be required. In this connection, such State committee may require the displaced owner to present evidence and personally appear in support of the application. In the event such concurrence is refused after review of all the available data, the action of the county committee together with all related data shall be submitted to the deputy administrator for final determination.

(v) Amount of allotment available for transfer: Upon completion of all necessary approvals under this subparagraph, the county committee shall issue an appropriate allotment notice under the applicable commodity regulations. The allotment to be transferred for a commodity shall be no greater than an amount required to establish an allotment comparable with allotments determined for other farms in the same

area which are similar except for the past acreage of the commodity, taking into consideration the land, labor, and equipment available for the production of the commodity, crop-rotation practices, and the soil and other physical factors affecting the production of the commodity: *Provided, however*, That the acreage transferred from the pool shall not exceed the allotment most recently established for the farm acquired from the displaced owner and placed in the pool. When all or a part of the allotment placed in the pool is transferred and used to establish or increase the allotment for other farms owned or purchased by the displaced owner, all or the proportionate part of the past acreage history for the farm from which the owner was displaced shall be transferred to and considered for purposes of future allotments to have been planted on the farm for which an allotment is established or increased under this section. If only a part of the available allotment is transferred from the pool, the remaining part of the allotment and past acreage history shall remain in the pool for transfer to other farms of the displaced owner until all such allotment acreage has been transferred or until the period of eligibility for establishing or increasing allotments under this section has expired.

(vi) Cancellation of transfers of allotment: If an allotment is transferred hereunder and it is later determined by the county committee or the State committee for the State and county to which the pooled allotment was transferred, or the deputy administrator, that the transfer was obtained by misrepresentation by or on behalf of the displaced owner, or the conditions applicable under subdivision (iii) of this subparagraph are not met, the allotment for the farm shall be reduced by the amount of the transfer for each year the transfer purportedly was in effect and if the time for withdrawal from the pool has not expired, the amount of the reduction shall be returned to the pool. Any cancellation of transfer of allotment by the county committee shall be subject to approval by the State committee or its representative. The county committee shall issue any notice of marketing quota and penalty as may be required in accordance with applicable commodity regulations.

(vii) Notwithstanding the provisions prescribed in this subparagraph, if the displaced owner files a request for the transfer of a pooled allotment within the prescribed period for filing such request but his request for transfer is filed during a year in which all or a part of the pooled allotment was released to the county committee pursuant to subparagraph (1) of this paragraph, the application for transfer will be processed in the usual manner but action to effect the actual transfer of the allotment which is temporarily released shall be delayed until such time as the pooled allotment which was released for the current year is established for the succeeding year. When a request for transfer of a pooled allotment involves a transfer from one State to another, the receiving State office shall obtain information from the State office in the State in which the allotment is

pooled as to whether any part of the allotment for which the transfer is requested has been released to the county committee for the current year.

(Sec. 375, 52 Stat. 66, as amended, 378, 72 Stat. 988, 124, 70 Stat. 198; 7 U.S.C. 1375, 1378, 1812)

Prior to issuing the foregoing amendment to the regulations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Administrator, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington 25, D.C., within 10 days following the publication of this notice in the *FEDERAL REGISTER*. The date of postmark will be considered as the date of any submission.

Signed at Washington, D.C., on November 9, 1961.

bilization and Conservation

FEDERAL AVIATION AGENCY

[14 CFR Parts 601, 608]

[Airspace Docket No. 60-KC-24]

CONTROLLED AIRSPACE AND RESTRICTED AREAS

Alteration of Proposal; Supplemental Notice

In a notice of proposed rule making published in the FEDERAL REGISTER on January 28, 1961 (26 F.R. 919), and a supplemental notice of proposed rule making published September 28, 1961 (26 F.R. 9137), it was stated that the Federal Aviation Agency proposed to revoke the

Salina control area extension, designate a controlling agency for Restricted Areas R-3601 and R-3602, designate a transition area at Salina, and alter the Salina control zone.

Subsequent to the publication of these notices, the Federal Aviation Agency has determined that to further implement Amendment 60-21, Part 60, Air Traffic Rules, in the Salina area, the control areas associated with VOR Federal airways No. 4, 4 south alternate, 108 and 73 should be established at 1,200 feet above the surface within the proposed Salina 25-mile radius transition area so as to coincide with the floor of this portion of the proposed transition area. This would not effect the present air traffic control procedures on these airways.

In order to provide interested persons time to evaluate this proposal, as modified herein, and an opportunity to submit additional written data, views or arguments, the date for filing such material will be extended to November 27, 1961.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on November 13, 1961.

Chief, Airspace Utilization Division.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Bartlett Building, 215 West 7th Street, Los Angeles 14, California.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the **FEDERAL REGISTER**. A separate notice will be sent to each interested party of record.

ATOMIC ENERGY COMMISSION

[Docket No. 50-2]

UNIVERSITY OF MICHIGAN

Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued Amendment No. 8, set forth below, to Facility License No. R-28. The license authorizes The Regents of the University of Michigan to operate the Ford Nuclear Reactor located in Ann Arbor, Michigan.

The amendment provides an authorization to possess at any time up to five fission type neutron detectors, which may contain up to a maximum total of 10 grams of uranium-235, for use in instrumentation in connection with operation of the reactor. Previously the license had authorized possession and use of sixty milligrams of contained uranium-235 in a single neutron measuring instrument.

The Commission has found that use of the additional instrumentation will not increase any hazards associated with operation of the reactor and that operation of the reactor in accordance with the license as amended will not present an undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has further found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since operation of the reactor in accordance with the license as amended would not present any substantial change in the hazards to the health and safety of the public from those previously considered and evaluated in connection with the previously approved operations.

In accordance with § 2.102(a) of the Commission's rules of practice (10 CFR Part 2) the Commission will direct the

holding of a formal hearing on the matter of issuance of the license amendment upon receipt of a request therefor from the licensee or a petition to intervene pursuant to § 2.705 of the rules of practice within 30 days after the issuance of the license amendment. Petitions for leave to intervene and requests for a formal hearing shall be filed in accordance with the provisions of § 2.700 of the Commission's rules of practice (10 CFR Part 2).

The licensee's request, dated October 11, 1961, for amendment of the license may be inspected at the Commission's Public Document Room, 1717 H Street N.W., Washington, D.C.

Dated at Germantown, Md., this 7th day of November 1961.

Pending further order of the Presiding Officer, parties shall file twenty copies of each such paper with the AEC and where service of papers is required on other parties shall serve five copies of each.

The hearing will be conducted by a Presiding Officer to be designated by the Chief Hearing Examiner.

Dated at Germantown, Md., this 8th day of November 1961.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 14366; FCC 61-1334]

WALTER L. FOLLMER

Order Scheduling Application for Oral Argument

In re application of Walter L. Follmer, Hamilton, Ohio, Docket No. 14366, File No. BMPH-6616; for additional time to construct Radio Station WFOL.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 8th day of November 1961;

The Commission having under consideration the above-captioned application requesting additional time to construct a new FM broadcast station at Hamilton, Ohio; and

It appearing that on June 15, 1960, the Commission granted a permit to Walter L. Follmer authorizing the construction of a new Class B FM broadcast station at Hamilton, Ohio, specifying a completion date of February 15, 1961; and

It further appearing; that, on February 15, 1961, the instant application was filed for additional time to construct, citing the permittee's desire to await the grant of his co-pending application for authorization to construct a new standard broadcast station at Hamilton, Ohio (File No. BP-11323), which application had previously been designated for hearing; and that the permittee indicated that construction had been delayed because of an intention to combine the proposed AM and FM facilities; and

It further appearing, that, on March 6, 1961, the permittee was notified by letter of the Commission's inability to find that said permittee has been diligent in proceeding with construction of the authorized facilities, or that the uncertainty surrounding the hearing involving the standard broadcast application could be considered as a justifiable basis for an extension of time to construct; and

It further appearing that permittee's reply thereto states that the financial prospects for an FM operation at Hamilton are such that he is unwilling to proceed with the construction of the above-captioned FM station until the co-pending standard broadcast application is granted; and

It further appearing that because of the nature of the issues involved, there is no reasonable prospect that hearing proceedings on the standard broadcast application can be concluded in the near future; and

It further appearing that owing to the absence of substantial questions of fact, an evidentiary hearing on the instant application would serve no useful purpose; and

It further appearing that the reasons offered by the permittee for not proceeding with construction entitle him at most to oral argument on the question of whether failure to complete was due to

causes beyond his control or other matters sufficient under section 319(b) of the Communications Act of 1934, as amended, and § 1.323(a) of the Commission's rules to warrant grant of the instant application.

It is ordered, That the above-captioned application is designated for oral argument before the Commission En Banc in Washington, D.C., at a time to be specified in a subsequent Order on the following issue: To determine whether the reasons advanced by the permittee in support of the instant application for additional time to construct constitute a showing that failure to complete construction was due to causes not under permittee's control or other matters sufficient under section 319(b) of the Communications Act of 1934, as amended, and § 1.323(a) of the Commission's rules to warrant an extension; and

It is further ordered, That to avail himself of the opportunity to be heard, the permittee, pursuant to § 1.140 of the Commission's rules, in person or by attorney, shall within twenty (20) days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the oral argument and present evidence on the issues specified, and shall have until 10 days prior to oral argument to file briefs or memoranda of law.

FEDERAL MARITIME COMMISSION

[Docket No. 954]

INVESTIGATION OF RATES AND PRACTICES IN ATLANTIC-GULF/ PUERTO RICO TRADE

Notice of Supplemental Order

On November 2, 1961, the Federal Maritime Commission entered the following Ninth Supplemental Order to the original Order in this proceeding dated July 17, 1961:

It appearing that there is currently pending an investigation into and a hearing concerning certain reduced rates and practices from Atlantic and Gulf coast ports of the United States to ports in the Commonwealth of Puerto Rico which became effective on July 6, 1961, and on various dates thereafter; and

It further appearing that A. H. Bull Steamship Company, Inc. (Bull), has been named a respondent in this proceeding; and

It further appearing that, on October 4, 1961, Bull filed with the Federal Maritime Commission (Commission) a new tariff page setting forth a new rule which provides for increased rates and charges, and a change in regulations and practices affecting such rates and charges, the said rule to become effective November 6, 1961, and being designated as follows:

A. H. Bull Steamship Co., Outward Freight
Tariff No. 1, F.M.B.-F No. 1, 2d revised page
No. 20, item 2;

and

It further appearing that a protest was filed on October 30, 1961, by Alcoa Steamship Company, Inc. (Alcoa), requesting suspension and investigation of the said rate; and

It further appearing, that upon consideration of the said schedule and protest thereto, there is reason to believe that the said schedule would, if permitted to become effective, result in a rate, charge, rule, classification, regulation, tariff, or practice which would be unjust, unreasonable, or otherwise unlawful in violation of the Shipping Act, 1916, as amended, and the Intercoastal Shipping Act, 1933, as amended; and

It further appearing, that the Commission is of the opinion that the new schedule and the rates, charges, classifications, rules, regulations, tariffs, and practices contained therein should be made the subject of a public investiga-

tion and hearing to determine whether it is just, reasonable; and otherwise lawful under the Shipping Act, 1916, as amended, or the Intercoastal Shipping Act, 1933, as amended; and

It further appearing, that the effective date of the said schedule should be suspended pending such investigation; and

Now therefore, it is ordered, That this proceeding be, and it hereby is, expanded to include, in addition to the matters now under investigation, an investigation into and concerning the lawfulness of the rates, charges, classifications, rules, regulations, tariffs, and practices contained in the said schedule, with a view to making such findings and orders in the premises as the facts and circumstances shall warrant; and

It is further ordered, That said schedule be, and it is hereby, suspended and that the use of the said schedule, be, and it is hereby, deferred to and including March 5, 1962, unless otherwise authorized by the Commission, and that the rates, fares, charges, classifications, rules, regulations, and practices heretofore in effect, and which were to be changed by the suspended schedule, shall remain in effect during the period of suspension; and

It is further ordered, That no change shall be made in the matter hereby suspended nor the matter which is continued in effect as a result of such suspension until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission; and

It is further ordered, That there shall be filed immediately with the Commission by Bull a consecutively numbered supplement to the aforesaid suspended schedule which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended schedule is described, and shall state that the aforesaid schedule is suspended and that the rates, fares, charges, classifications, rules, regulations, and practices therein stated may not be used until March 6, 1962, unless otherwise authorized by the Commission, and that the rates, fares, charges, classifications, rules, regulations, and practices heretofore in effect, and which were to be changed by the suspended schedule, shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission; and

It is further ordered, That copies of this order shall be filed with the said tariff schedule in the Office of Regulations of the Federal Maritime Commission; and

It is further ordered, That (I) the investigation herein ordered be assigned for public hearing before an examiner of the Commission's Office of Hearing Examiners, at a date and place to be

determined and announced by the Chief Examiner, to receive evidence in this proceeding, which will provide an adequate record for proper disposition of the issues and that an initial decision be issued; (II) a copy of this order shall forthwith be served upon the protestant, Bull, and all others heretofore named respondents hereto; (III) the said respondents and protestants be duly notified of the time and place of the hearing ordered; and (IV) this order and notice of the said hearing be published in the FEDERAL REGISTER.

Commission.

It is further ordered, That (I) there shall be filed immediately with the Commission by the Matson Navigation Company consecutively numbered supplements, to the aforesaid suspended schedules which supplements shall bear no effective date, shall reproduce the portion of this order wherein the suspended schedules are described, and shall state that the aforesaid schedules are suspended and that the rates, charges, classifications, regulations, tariffs, and practices therein stated may not be used until the 9th day of March 1962, unless otherwise authorized by the Commission; and (II) the rates, charges, classifications, regulations, tariffs, and practices hereby deferred may not be changed during the period of suspension or any extension thereof, unless otherwise authorized by the Commission, and that the rates, fares, charges, classifications, rules, regulations, and practices heretofore in ef-

fect, and which were to be changed by the suspended schedules, shall remain in effect during the period of suspension, and neither the matter hereby suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission;

It is further ordered, That copies of this shall be filed with the said tariff schedules in the Office of Regulations of the Federal Maritime Commission:

FEDERAL RADIATION COUNCIL

QUESTIONS CONCERNING RADIATION PROTECTION STANDARDS FOR URANIUM MINING

Request for Comments

NOVEMBER 1, 1961.

The Federal Radiation Council is presently considering the problem of providing radiation protection guidance in activities designed to control the occupational exposure of uranium mine workers to airborne radioactivity in the mines. By this communication, the Council is inviting public comment on the basic issues involved in this problem. To insure effective consideration, comments should be transmitted by January 1, 1962.

The Federal Radiation Council was established in 1959 by Executive Order and later by statute to " * * * advise the President with respect to radiation matters, directly or indirectly affecting health, including guidance for all Federal agencies in the formulation of radiation standards * * * ". The nature of the Council's task in advising the President with respect to radiation protection guidance has been described in the following language: "Fundamentally, setting basic radiation protection standards involves passing judgment on the extent of the possible health hazard society is willing to accept in order to realize the known benefits of radiation. It involves inevitably a balancing between total health protection, which might require foregoing any activities increasing exposure to radiation, and the vigorous promotion of the use of radia-

tion and atomic energy in order to achieve optimum benefits."

The Council's consideration is focused on a concentration of radon daughters in air, commonly referred to as the "working level." The working level is discussed in U.S. Public Health Service Publication 494 and may be defined as any concentration of radon daughter products, RaA, RaB, and RaC, collectively, having the same potential alpha energy release in complete decay through RaC' as 300 micromicrocuries per liter of these three materials in equilibrium. This level was agreed upon at a conference attended by representatives of the Public Health Service and Atomic Energy Commission, a number of mining states, and the uranium industry held in Salt Lake City in 1955. It has been used by several of the uranium mining states and has recently been published as an American Standard by the American Standards Association.

The Federal Radiation Council is currently studying the numerical guide noted above in light of the following questions:

1. Does exposure of uranium mine workers at the level of this guide represent an undue biological risk considered in light of the various benefits deriving from uranium mining?

2. Would conformance with this guide have unduly adverse effects on the uranium mining industry in light of the reason for controlling exposure to radiation?

The Federal Radiation Council would welcome comments which interested persons or organizations might care to make. Comments should be addressed

to: Chairman, Federal Radiation Council, Executive Office Building, Washington 25, D.C., and should be received by January 1, 1962.

Dated: November 1, 1961.

ABRAHAM RUBICOFF,
Chairman.

SOHOMA NATURAL GAS COMPANY, INC., AND FIRST TRANSPORTATION GAS CORPORATION, INC.

Findings and Order Issuing Certificate of Public Convenience and Necessity, Accepting Related Gas Rate Schedule, Severing Proceeding and Setting Hearing

NOVEMBER 8, 1961.

Sohoma Natural Gas Company, Inc. (Sohoma) has filed in Docket No. CI61-162 an application pursuant to section 7(c) of the Natural Gas Act (Act) for a certificate of public convenience and necessity authorizing the sale of natural gas to Cities Service Gas Company (Cities Service) from the Skinner Sand in the E/2 of the SW/4 of Section 30, T24N, R1W, Noble County, Oklahoma, pursuant to a gas sales contract dated July 14, 1960, between Sohoma, as seller, and Cities Service, as buyer, which contract has been designated as Sohoma Natural Gas Company, Inc. FPC Gas Rate Schedule No. 1.

Also, First Transportation Gas Corporation, Inc. (First Transportation) has filed in Docket No. CI61-985 an application pursuant to section 7(c) of the Act for a certificate of public convenience and necessity authorizing the sale of natural gas to Transwestern Pipeline Company (Transwestern) from certain leaseholds in Lipscomb and Ochiltree Counties, Texas, and Beaver, Harper, Ellis and Woodward Counties, Oklahoma, pursuant to a gas sales contract dated December 29, 1960, between First Transportation, as seller, and Transwestern, as buyer, which contract has been designated as First Transportation Gas Corporation, Inc. FPC Gas Rate Schedule No. 1.

Temporary authorization to render the proposed service in Docket No. CI61-985 was granted to First Transportation on February 2, 1961, conditioned upon limitation of the initial price to 17.0 cents per Mcf at 14.65 psia, and upon the elimination of an upward Btu price adjustment clause from the provisions of the gas sales contract. Under date of February 7, 1961, First Transportation accepted said temporary authorization and the conditions imposed therein, but the supplemental agreement incorporating said conditions into the basic contract (designated Supplement No. 1 to FPC Gas Rate Schedule No. 1) contained a provision for the nullification thereof if the Commission should at any time in the future recognize such "upward Btu price adjustment clauses." On June 16, 1961, First Transportation filed an amendatory agreement (designated Supplement No. 2 to FPC Gas Rate Schedule No. 1) which sought to assure a price for the gas to be sold under the subject Docket No. CI61-985 which would be the maximum price established in the pending proceeding known as Docket Nos. G-14871, et al., Transwestern Pipeline Company, or the maximum price which might be established in an area rate proceeding. The Commission informed First Transportation under date of July 20, 1961, that such indefinite pricing provisions are inoperative and of no effect at law. On October 25, 1961, First Transportation filed an amendment to its acceptance of the temporary authorization granted on February 2, 1961, in which it agreed to accept a permanent certificate of public convenience and necessity conditioned at a price of 17.0 cents per Mcf with no reservations.

On October 23, 1961, Pacific Lighting Gas Supply Company, Southern California Gas Company and Southern Counties Gas Company of California filed a joint petition to intervene in Docket No. CI61-985. On October 30, 1961, The People of the State of California and the Public Utilities Commission of the State of California filed their notice of intervention in said Docket No. CI61-985. Both the petition and the notice were filed subsequent to the final date for the filing thereof as published in the official notice of the hearing in this consolidated proceeding.

Pursuant to said notice, a public hearing was convened in Washington, D.C., on October 31, 1961, at which time and place staff counsel moved orally that a recess be taken to November 2, 1961, at 9:30 a.m., to afford time to prepare appropriate recommendations for Commission consideration.

On November 2, 1961, pursuant to the recess granted by the Presiding Examiner, the hearing in the matter of Docket No. CI61-162 was held and concluded. Staff counsel moved orally that the intermediate decision procedure be omitted and that the Commission render a decision in that docket pursuant to § 1.30(c) (1) of the Commission's rules of practice and procedure. The matter of the application in Docket No. CI61-985

and the pending petition to intervene and notice of intervention therein were reserved for further action by the Commission.

The Commission finds:

(1) Applicant, Sohoma Natural Gas Company, Inc., an independent producer of natural gas, will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption upon commencement of the service for which authorization is granted in Docket No. CI61-162 hereinafter, and said Applicant will therefore be a "natural-gas company" within the meaning of the Natural Gas Act.

(2) The sale of natural gas by Sohoma hereinbefore described, as more fully described in the application in Docket No. CI61-162, will be made in interstate commerce subject to the jurisdiction of the Commission and such sale by Sohoma, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, is subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) The sale of natural gas by Sohoma proposed in Docket No. CI61-162, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, is required by the public convenience and necessity and a certificate therefor should be issued as hereinafter ordered and conditioned.

(4) Sohoma is able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules and regulations of the Commission thereunder.

(5) Sohoma's FPC Gas Rate Schedule No. 1 should be accepted to become effective upon the date of initial delivery of natural gas pursuant to this authorization.

(6) The matter of the application of First Transportation Gas Corporation, Inc. in Docket No. CI61-985 should be severed from the proceeding in Docket No. CI61-162 and set for hearing on a date to be hereafter fixed.

(7) A request during the public hearing by staff counsel for omission of the intermediate decision procedure in Docket No. CI61-162 was unopposed by any party of record and, not having been denied by the Commission, is granted pursuant to § 1.30(c) (1) of the Commission's rules of practice and procedure.

The Commission orders:

(A) A certificate of public convenience and necessity be and the same is hereby issued, upon the terms and conditions of this order, authorizing the sale by Sohoma Natural Gas Company, Inc., of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, as hereinbefore described and as more fully described in the application in Docket No. CI61-162.

(B) The certificate granted in paragraph (A) above is not transferable and shall be effective only so long as Sohoma Natural Gas Company, Inc. continues the acts or operations hereby authorized

in accordance with the Natural Gas Act and the applicable rules, regulations and orders of the Commission.

(C) The grant of the certificate issued in paragraph (A) above shall not be construed as waiver of the requirements of section 4 of the Natural Gas Act or section 154 of the Commission's regulations thereunder, and is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against the Applicant herein. Further, our action in this proceeding shall not foreclose nor prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contract here involved.

(D) Sohoma's FPC Gas Rate Schedule No. 1 is hereby accepted for filing to be effective upon the date of initial delivery of natural gas pursuant to this authorization. Sohoma shall notify the Commission of the date of commencement of deliveries thereunder.

(E) This acceptance for filing shall not be construed as constituting approval of any rate or provisions contained in the rate filing; nor shall such acceptance be deemed as recognition of any claimed contractual right or obligation associated therewith; and such acceptance is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against Sohoma.

(F) The certificate issued in paragraph (A) above shall be deemed to have been accepted by Sohoma unless it is rejected in writing by an authorized official thereof within thirty days of the date of issuance of this order.

(G) The matter of the application of First Transportation Gas Corporation, Inc. in Docket No. CI61-985 is hereby severed from the proceeding in Docket No. CI61-162 and is hereby set for further hearing on a date to be hereafter fixed.

By the Commission.

TENNESSEE GAS TRANSMISSION CO. AND MANUFACTURERS LIGHT AND HEAT CO.

Notice of Applications and Date of Hearing

NOVEMBER 8, 1961.

Take notice that on July 19, 1961, Tennessee Gas Transmission Company (Tennessee), a Delaware corporation, having its principal place of business in the Tennessee Building, Houston, Texas, filed an application (Docket No. CP62-14) pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing Tennessee to transfer the deliveries of 35,000 Mcf (at 14.73 psia) of natural gas per

day, which is part of the volume of gas which Tennessee is presently delivering to United Fuel Gas Company (United) in Tennessee's Eastern Rate Zone, to The Manufacturers Light and Heat Company (Manufacturers) for the account of United in Tennessee's Northern Rate Zone, all as more fully set forth in Tennessee's application. The proposed transfer of deliveries will be for the six months period commencing on November 1, 1961, and ending on April 30, 1962 and for each six months period thereafter that commences on November 1st and ends on April 30th for a term of years coextensive with the term of the Gas Sales Contract between Tennessee and United dated May 4, 1959.

Tennessee alleges that its proposed transfer service will obviate the necessity for Manufacturers to construct additional pipeline facilities to enable it to receive increased peak day deliveries from United. Tennessee also states that it has the ability to render this transfer service with existing pipeline facilities and that the proposed service will generate additional revenues to the benefit of all of its customers.

Tennessee and United have entered into a letter agreement dated July 13, 1961, covering the proposed transfer service.

Take further notice that on November 25, 1960, The Manufacturers Light and Heat Company, a subsidiary of The Columbia Gas System, Inc., filed an application (Docket No. CP61-155) and on February 20, 1961, April 10, 1961, and July 21, 1961, supplements thereto, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing Manufacturers to construct and operate certain compressor units and a natural gas pipeline, all as more fully set forth in Manufacturers' application.

Manufacturers proposes to construct and operate 4,000 additional horsepower in compressor units at its existing Adaline Compressor Station in Marshall County, West Virginia and approximately 10.47 miles of 24-inch pipeline in several sections replacing corresponding sections of 16-inch pipeline in Manufacturer's Line 65 in the western part of Allegheny County and adjoining portions of Washington and Beaver Counties, Pennsylvania. The estimated cost of these proposed facilities will be \$2,387,000, which will be financed by The Columbia Gas System, Inc. Salvage value of the facilities to be replaced is estimated at \$16,500, with credit to fixed capital of \$145,000 and cost of retirement estimated at \$5,000.

Manufacturers alleges that the proposed facilities are necessary in order to increase the capacity of its main trunk transmission system to make it possible to serve 1961-1962 peak day additional requirements of its customers. Manufacturers says its most recent estimate indicates that its 1961-1962 winter additional gas requirements total 79,900 Mcf per day or 47,500 Mcf per day more than initially estimated in its original application. It was originally proposed that the additional volumes of natural gas (32,200 Mcf per day) were to come

from Manufacturers Victory Storage Field. It now proposes to meet its additional 1961-1962 winter requirements as follows:

	Mcf
Additional volume from United (Tennessee's Northern Zone)-----	35,000
Additional volume from Victory Storage Field-----	45,000
Total -----	80,000

Manufacturers states that it will increase its contract demand with United from 185,000 to 220,000 Mcf per day to provide it with the additional 35,000 Mcf per day. Manufacturers alleges that the existing interconnecting facilities between United Fuel and Manufacturers are adequate to transport the higher volume of 220,000 Mcf per day during the summer period, but to provide such adequacy during peak winter periods would require substantial transmission construction.

Said applications are on file with the Commission and open for public inspection.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 1 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 18, 1961, at 10:00 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 6, 1961.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3842]

BLACK BEAR INDUSTRIES, INC.

Order Summarily Suspending Trading

NOVEMBER 9, 1961.

The common stock, par value 15 cents a share, of Black Bear Industries, Inc. (formerly Black Bear Consolidated Mining Co.) being listed and registered on the San Francisco Mining Exchange, a national securities exchange; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15(c)(2) of the Securities Exchange Act of 1934 and the Commission's Rule 15c2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction

in, or to induce or attempt to induce the purchase or sale of such security, otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19(a)(4) of the Securities Exchange Act of 1934 that trading in said security on the San Francisco Mining Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, this order is to be effective for a period of ten (10) days, November 10, 1961, to November 19, 1961, both dates inclusive.

SHARES IN AMERICAN INDUSTRY, INC.

Notice of Filing of Application for Order for Exemption To Permit Purchase of Securities During an Underwriting

NOVEMBER 7, 1961.

Notice is hereby given that Shares in American Industry, Inc. ("Applicant"), Washington, D.C., has filed an application pursuant to section 10(f) of the Investment Company Act of 1940 ("Act") for an order of the Commission exempting from the provisions of section 10(f) of the Act, the proposed purchase by the Applicant of 5000 shares of Class A common stock of District Wholesale Drug Corporation, ("District Wholesale"), which is a portion of a 100,000 share offering of \$4.00 no par value capital stock expected to be offered to the public as soon as the registration statement Form S-1 filed September 19, 1961 of District Wholesale shall be made effective pursuant to section 8(a) of the Securities Act of 1933.

Auchincloss, Parker, & Redpath is the principal underwriter of the issue on a firm commitment basis. A partner of such firm is Mack Sullivan, Jr., who is also a director of the Applicant.

Apparently the exemption provided by Rule 10f-3 of the Act is unavailable since the sales commission applicable to the public offering of the District Wholesale Class A common shares will be in excess of 7 percent. The price to be paid will be equal to the public offering price in effect on the first full day of the offering.

Section 10(f) of the Act provides, among other things, that no registered investment company shall knowingly purchase or otherwise acquire, during the existence of any underwriting or selling syndicate, any security (except a security of which such company is the issuer) a principal underwriter of which is a person of which a director of such registered investment company is an affiliated person. The Commission may exempt a transaction from this prohibition if and to the extent that such exemption is consistent with the protection of investors.

Since one of the Applicant's directors is an affiliated person of the manager of the underwriting syndicate offering the stock, the purchase thereof by Applicant is subject to the provisions of section 10(f) of the Act.

The Applicant in support of its application asserts that the proposed investment in District Wholesale would be a suitable and attractive one for the Fund, that the purchase will be made through non-affiliated members of the underwriting group, and that the amount proposed to be purchased will not exceed 3 percent of the total offering by District Wholesale of 6 percent Convertible Subordinated debentures and Class A common stock, and that the amount paid will not exceed 3 percent of the total assets of the Fund.

Notice is further given that any interested person may, not later than November 22, 1961, at 5:30 p.m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, the application may be granted as provided in Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.
